

EDI-Integrated Suite SAP Business One Overview

EDI-Integrated Suite for SAP Business One is a fully integrated import/export module designed to exchange EDI, as well as other file formats (XML, flat files, csv, etc.) directly to and from SAP Business One, eliminating all need for manual intervention. The EDI-Integrated Suite also comes equipped with validation, automation, and reporting functions that have been designed with the user in mind. The EDI-Integrated Suite's ease of use now enables SAP Business One users to take advantage of the true business process optimization for which EDI has always been intended.

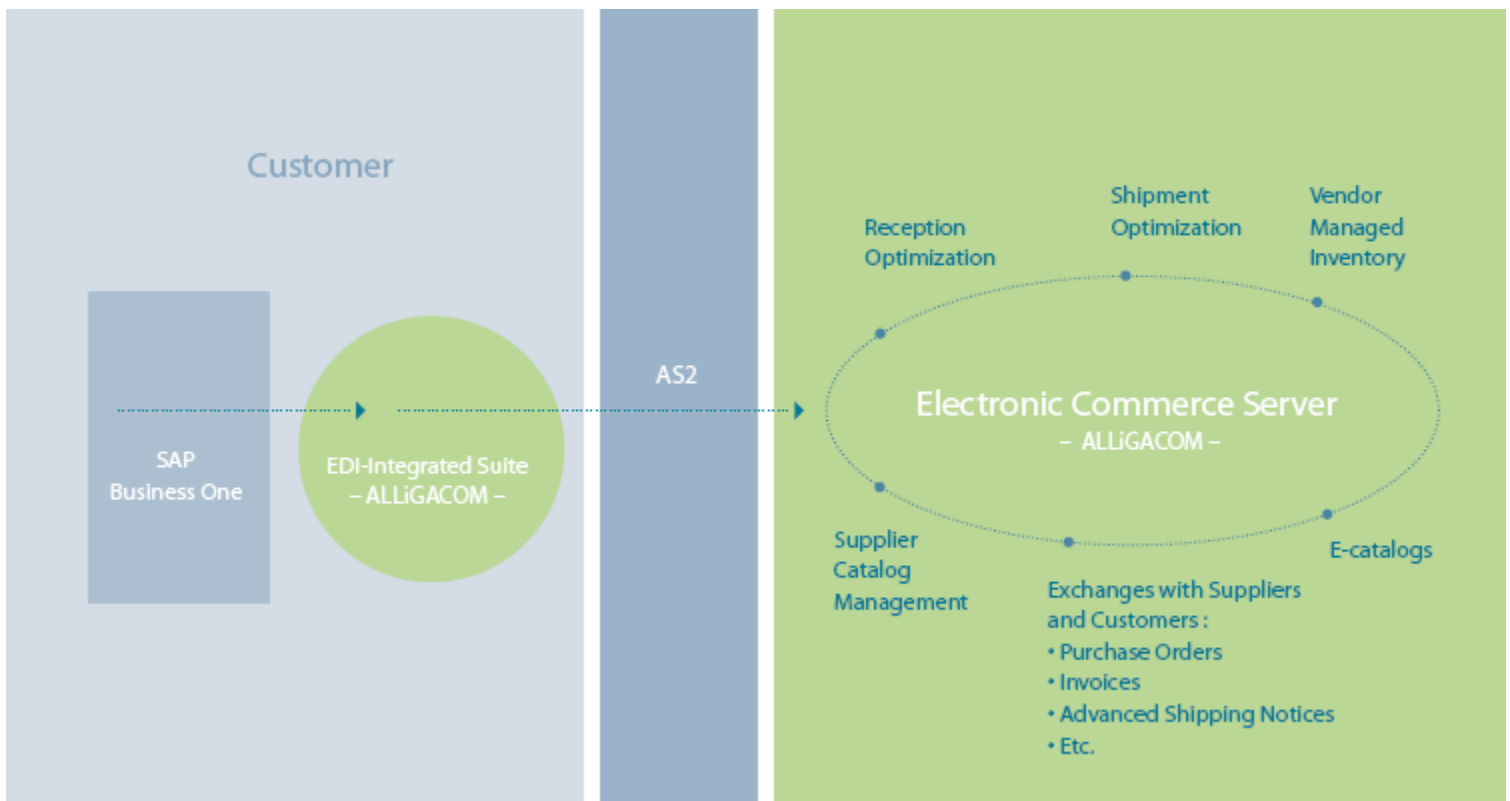

The EDI-Integrated Suite allows your customers to make significant low-cost strides in the fields of EDI and Electronic Commerce. Through a unique access point, SAP Business One users can now exchange seamlessly integrated electronic documents in order to truly optimize business processes with customers and suppliers.
